## Rainbow Eye

by Gretchen Fleener

Load your sponge and swipe a rainbow. I'm using a Kryolan round sponge (\$1.20) that's been cut in half, and a Paradise rainbow cake (\$13.00).

Add some white teardrops to close off each end of the rainbow. Use a brush to fill in missing color areas as you get used to using a rainbow cake.

Add more smaller, curved teardrops and some dots. I like to use Paradise Detailz for super small dots, and the Snazaroo dotting wand as well.

Finish off with some swirls and a squirt of Mehron glitter spray!

# New Products **Springing** Up Everywhere!

With spring comes new growth, and that's just what has been going on around the Paintertainment offices! Business has been growing to the point where I have had more gigs than I expected for this season, which has left me with less time to put together newsletters. But, I can't complain...business is great! When I did have spare time, however, I was also able to "grow" our assortment online! I have recently added several new products from current vendors, and am super excited to have taken on a new vendor, Wolfe FX! Click on the images below for links to find them now on Paintertainment.com!
